

CISCO NETWORKING, CERTIFICATE

CISCO Networking, Certificate

Overview

The Cisco Networking Certificate includes four courses from the Cisco CCNA curriculum and aligns to Federal standards for networking job roles of system administrators and security professionals. Graduates will be prepared to take the CCNA certification test. Cisco Certified Network Associate (CCNA®) validates the ability to install, configure, operate, and troubleshoot medium-size route and switched networks, including implementation and verification of connections to remote sites in a WAN. CCNA curriculum includes basic mitigation of security threats, introduction to wireless networking concepts and terminology, and performance-based skills. The widely respected Cisco Career Certifications bring valuable, measurable rewards to network professionals, their managers, and the organizations that employ them.

Locations

Granite Falls, Jackson, Online

CST Department Disclosure: Due to scheduling, the courses that satisfy this certificate are not guaranteed to be offered within one semester.
