

EARLY CHILDHOOD EDUCATION TRANSFER PATHWAY, A.S.

Early Childhood Education Transfer Pathway, A.S.

Overview

Minnesota West's Early Childhood Education program prepares students for meaningful and rewarding careers working with children birth through age 8. The Early Childhood Education Transfer Pathway (AS) offers students a powerful option: the opportunity to complete an Associates of Science degree with course credits that directly transfer to designated Early Childhood Education bachelor's programs at Minnesota State universities. The curriculum has been specifically designed so that students completing this pathway degree and transferring to one of the seven Minnesota State universities enter the university with a junior-year status. All courses in the Transfer Pathway associate degree will directly transfer and apply to the designated bachelor's degree programs in a related field.

Locations

Granite Falls, Online, Worthington

****DHS Background Study is required for program/courses with field experiences.**

Program Learning Outcomes:

Define basics of child development and learning.

Create environments for children that are healthy, respectful, supportive, and appropriate for each child.

Articulate characteristics of family and community relationships that support children's development and learning.

Observe, document, and assess to provide learning environments for children.

Use developmentally-appropriate approaches, strategies, and tools to positively impact each child's development and learning.

Build appropriate and meaningful curriculum to promote comprehensive development.

Demonstrate reflective practice and integrate knowledge and cooperative feedback.

Engage in field experiences to develop knowledge, skills, and professional dispositions to promote development and learning in multiple settings and with various age groups.
