
NURSING ASSISTANT

Nursing Assistant, Certificate

Overview

Nursing Assistant is a three-credit class designed to prepare students for entry-level jobs in nursing homes and other healthcare facilities and introduces concepts of basic human needs, health/illness and basic nursing skills.

Locations

Granite Falls, Jackson, Marshall, Pipestone, Worthington

Skills are demonstrated in a supervised laboratory setting and in a clinical environment. The nursing assistant will be able to perform tasks that are related to patient/resident care and supportive of nursing care. Clinical experience in a nursing home is included.

This course is designed to prepare one to successfully complete the Minnesota Nursing Assistant Certification Competency Examination and be able to apply for the [Minnesota Nursing Assistant Registry](#).
