## SECTION HEADING

### CJS 2233: Firearms-Tactical Management

#### Description

Firearms-Tactical Management examines the physiological, psychological and emotional effects of stress on peace officers in their careers and during critical incidents to allow students to recognize these effects and develop skills to deal with stress. This course will focus on familiarizing students with the safe handling, nomenclature, and proper shooting of handgun's, shotgun and patrol rifles requiring students to demonstrate proficiency after receiving instruction in the handling and use of handguns, shotgun, and patrol rifles. Students will then examine and complete exercises in critical incident management and different tactical responses to situations which may occur in the course of their duties.
