
SECTION HEADING

CJS 2250: Traffic Operations

Description

Traffic Operations explains and develops students understanding of how to investigate motor vehicle crashes and driving while impaired offenses. Through instruction students will establish how to fully investigate and document both motor vehicle crashes and driving while impaired offences and will demonstrate through reality-based training exercises how to properly complete these investigations including the use of State computer applications. This course will train students how to operate both RADAR/LIDAR units and will require the students to complete the State ARMER radio course.

Credits

4

Prerequisite

Formally accepted into Peace Officer Program

Corequisite

None

Topics to be Covered
