COSM 1115: Preclinic Color and Texture

Description

Preclinic Color and Texture will examine coloring and chemical texture services. Provides an understanding of temporary, semi-permanent, demi-permanent, and permanent color as well as lightening and corrective coloring techniques. Texture services, such as permanent waving, soft-curl perm, and hair relaxing will also be performed. This course will contribute 112 hours towards licensure.

Credits

4

Prerequisite

None

Corequisite

None

Topics to be Covered

1. Professionalism, communication, permanent waving, soft curl perming, chemical relaxing, all types of hair color theory and application along with decolorizing and corrective services.
