
SECTION HEADING

COSM 1150: Clinic III

Description

Clinic III will facilitate development of the practical skills necessary for entry-level salon work concentrating on nail tip enhancement application, application techniques utilizing resin and wraps, as well as the application of various building, bonding, and structure light cured gels. This course will explore Minnesota Cosmetology Laws and Rules, communication skills, and retail operations. This course will contribute 112 hours toward licensure. The State of Minnesota mandates the hours to go toward the hour requirements.

Credits

4

Prerequisite

None

Corequisite

None

Topics to be Covered

1. Application of resin and wrap nail enhancement systems
2. Introduction to artificial nail tip types and appropriate uses
3. Proper fitting and form of artificial nail tips
4. Application and maintenance of wrap services
5. Chemical composition of light cured gels
6. Different uses and applications of various types of light cured gels
