## SECTION HEADING

### DSL 1115: Electrical Lab

#### Description

Electrical Lab Requires the students to disassemble, inspect, evaluate, repair and test electrical systems and components.

#### Credits

2

#### Corequisite

Concurrent enrollment with DSL 1110

#### Topics to be Covered

1. Electrical systems
2. Electrical components

#### Learning Outcomes

1. Disassemble electrical systems and components.
2. Inspect electrical systems and components.
3. Evaluate electrical systems and components.
4. Repair test electrical systems and components.
5. Test electrical systems and components.

#### Credit Details

Lecture: 0

Lab: 2

OJT: 0
