EMS 2103: Emergency Medical Responder Refresher

Description

Emergency Medical Responder Refresher provides refresher training in emergency medical care for certified Emergency Medical Responder to maintain certification as outlined by the educational standards of the Minnesota EMS Regulatory Board. As the first person at the emergency scene, the first responder must be completely knowledgeable about basic principles of emergency medical care; and must know what should, as well as what should not be done. Students must hold a current Emergency Medical Responder certification of Emergency Medical Responder Certification that has not been expired by more than 12 months prior to course registration.

Credits

1

Topics to be Covered

1. Basic Life Support healthcare provider skills and exam
2. Cardiac arrest management, stroke signs and symptoms, post resuscitation care
