FBMA 2211: Current Issues in Farm Business Management

Description

Current Issues in Farm Business Management develops student skills in business management. It provides an opportunity for students to investigate and apply tools that may be effective in improving risk management plans, strategic plans, and business plans in their farm business operations. Emphasis is placed on the research of business management alternatives to meet their business and personal needs. Student and instructor will determine number of credits between one to five and determine current issue(s) topic based on student's need.

Management Credits

1-5

Topics to be Covered

1. Gather individual business and benchmarking data for developing business and personal goals
 - a. Assess business need(s) using farm business analysis data
