
SECTION HEADING

NURS 2190: Acute Care Clinical I

Description

Acute Care Clinical I allows students to demonstrate safe and effective application of the nursing process with emphasis on patient/family centered care, and the demonstration of therapeutic and professional communication. Students demonstrate clinical reasoning to synthesize newly acquired cognitive and technical skills with prior knowledge, skills, and attitudes. Prerequisite: Admission to Associate in Science Nursing Program, has completed necessary preclinical documentation as required by clinical sites, CastleBranch verification is complete.
