PSYC 2280: Field Experiences - Psychology

Description

Field Experiences - Psychology offers student paid or unpaid work experiences closely related to their academic and career pursuits. Assists students in gaining skills and realism about job demands and future educational choices. Activities are closely supervised by college instructors and on-the-job supervisors.

Credits

2-4

Prerequisite

None

Corequisite

None

Topics to be Covered

1. Topics will be designed based on the work site the individual is placed in and as is applicable to the individual student's educational goals and objectives.

Learning Outcomes

1. Apply theory and knowledge acquired in courses taken in actual work settings.
2. Problem-solve while on the work site those issues that are readily presented.
3. Communicate with those individuals that one is working with including supervisors, co-workers, administration, and placement supervisor.
4. Recognize human diversity through exposure to various individuals in the community.
