
SECTION HEADING

RADT 2210: Radiological Procedures III

Description

Radiological Procedures III provides the student with the knowledge necessary to perform radiographic procedures relative to angiography and special procedures. Examine previously learned content to provide the student with a comprehensive review of all radiographic procedures.

Credits

2

Prerequisite

RADT 1120

Corequisite

None

Topics to be Covered

1. Angiography
2. Special Procedures
3. Review all procedures

Learning Outcomes

1. Identify the structures demonstrated on routine radiographic procedures from all previously learned exams.
2. Evaluate images for positioning, centering, appropriate anatomy, and overall image quality.
3. Explain and define exams related to special procedures and angiography.
4. Apply general radiation safety and protection practices associated with radiologic examinations.
